Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Issued by [Oracle](#)

The Oracle Cloud Infrastructure 2025 Generative AI Professional certification is designed for Software Developers, Machine Learning/AI Engineers, and Gen AI Professionals. The prerequisite for this course includes a basic understanding of Machine Learning and Deep Learning concepts and experience with Python language. Individuals who earn this credential have a strong understanding of the Large Language Models (LLMs) and are skilled at using OCI Generative AI Service. They are also familiar with techniques such as Retrieval-Augmented Generation, Semantic Search, Vector database, and LangChain, to build, trace, evaluate, and deploy LLM applications.

 **Expiration Date:** September 24, 2027

Skills

Understand Large Language Models (LLMs)

Proficient in using OCI Generative AI Service

Build a Retrieval-Augmented Generation (RAG) based chatbot using OCI Generative AI Service
